### DETAILED ACTION

1. Claims 1-5, 17, 21-23 and 40-42 are pending.

#### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
  2. Ascertaining the differences between the prior art and the claims at issue.
  3. Resolving the level of ordinary skill in the pertinent art.
  4. Considering objective evidence present in the application indicating obviousness or nonobviousness.
3. Claims 1, 23, 42 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weil et al. (US Pat. 5,578,666) in view of Langford (US Pub. 2001/0011112), for the reasons adequately set forth from paragraph 5 of the office action of February 14, 2006.

4. Claims 2-5 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weil et al. (US Pat. 5,578,666) in view of Langford (US Pub. 2001/0011112) as applied to claim 1 above, and further in view of Jenewein et al. (US Pat. 6,365,071), for the reasons adequately set forth from paragraph 6 of the office action of February 14, 2006.

5. Claims 21-22 and 40-41 are rejected under 35 U.S.C. 103(a) as being unpatentable over Weil et al. (US Pat. 5,578,666) in view of Langford (US Pub. 2001/0011112) as applied to claim 1 above, and further in view of Gareiss et al. (US Pat. 6,084,012), for the reasons adequately set forth from paragraph 7 of the office action of February 14, 2006.

### ***Response to Arguments***

6. Applicant's arguments filed December 16, 2005 have been fully considered but they are not persuasive, in view of the rejection set forth above. Applicants argue that there is inadequate motivation to combine the references to set forth the above rejections. However, the examiner disagrees. Applicants' primarily argue that the motivation set forth to combine the references set forth is inadequate in view that since Weil et al. is drawn to a composition comprising a polymeric material, there is not need to reduce dust level of the flame retardant composition as claimed. However, applicants completely fail to recognize that the flame-retardant composition as claimed does not

Art Unit: 1713

exclude a flame-retardant composition comprising a polymeric material which is clearly disclosed in Weil et al. (Abstract; column 4, lines 27-30).

### ***Conclusion***

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

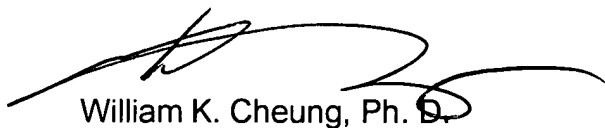

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
